Dear Mayor Frank G. Jackson  
The Department of Justice  
All others present:

I salute you with the love of Jesus Christ with just some of the solutions for this epidemic that infiltrates our lives even today. As I come before you today I remind you that violence is never the way.

As some of you already know, I am the daughter of Charles E.

Jackson Pinkney and Dr. Betty K. Butts Pinkney, Esq. aka Attorney at Law who have both been key components in helping many of you be progressive in your lives in many ways in and around Cleveland, Ohio as well as globally. I am a Preacher, 3<sup>rd</sup> Term Presidential Candidate this time for the 2016 Election for the "United States of America", that is still not united for a realistic and reasonable cause and effect, along with many other positions and responsibilities. I am blessed to

be alive and risked my safety coming here even now as you already are aware for my many efforts to reach out to you for assistance.

Thank you for having this platform assembled today.

I have lived to witness and experience prayer and faith be replaced with pain, pistols, prisons, fear, deception, and compromise. I have been a product of much of this violence that you speak of today seeking solutions to properly address them. I have been seeking individuals to peacefully assist me in addressing this matter for a lifetime along with the factors surrounding it including the lawlessness that has come to plague us and cost us our Nation and our land.

There has become a time where there are no boundaries and murder is the mindset. It is time to go back to our first love and our first work.

It is time for peace not preparing us for more war. The last time I spoke in a public platform my voice elevated as a result of the abuses that I have been incurring only to be insulted by one of you. A

person's voice will elevate while in pain as it should. If you have your foot on my neck I must say, "Ouch!" and get it off. That is not abnormal behaviour. What is abnormal is your having your foot on there in the first place. I have come in peace not to be insulted. I come also with solutions. As I have come here today, with your

knowledge that I currently do not have a safe place to live because of these violent situations that I am a currently a victim of, and if I say something that some people do not like they will have me me killed instantly physically without remorse, I will still stand on the fact that until violence ceases in the hearts and minds of leadership none of this shall ever change. They can try to kill my body but my spirit and soul shall always be in tact. First and foremost, No one should have a gun. Loving someone to heap hot coals upon their heads is not an option either. Accepting sin is not a solution. Neither is violence. Those who signed the Constitution owned slaves themselves. I have been reading the false notions that people have to believe that they should own other people. We own and possess things not people. Jesus loves you and so do I! Thank you and you are welcome. Blessings and peace to you always.
